Item # 1

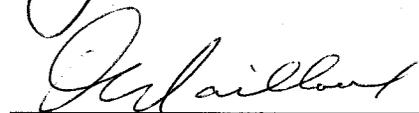

Request from the Humane Society to meet with Council regarding the need to reduce and control the population of roaming and stray cats in the community. Staff had previously met with executive members of the Humane Society and discussed the issue. Staff suggestion was that there were not a significant enough number of incidents to warrant a licencing or other program. A Program would demand a large amount of staff time with the benefits not being guaranteed. Council by consensus indicated that it was not necessary to meet with the Humane Society as it was not their intention to initiate any cat control program.

Being no further business, the meeting adjourned.
